PROFESSIONAL SUMMARY

Senior Data Engineer with 4+ years of experience building scalable data platforms on Azure Databricks across **BFSI** and **Retail/RCG** domains. Co-creator of **Alcazar**, a **Databricks Brickbuilder Solutions**. Core expertise spans multi-source data lake engineering, real-time Kafka ingestion and large-scale ETL automation. Holder of five industry certifications across Databricks, Azure, and GCP.

TECHNICAL SKILLS

Languages & Frameworks: Python, PySpark, SQL, Flask
Data Platforms: Azure Databricks, Delta Lake, Delta Live Tables (DLT), SQL Server
Databases & Streaming: MongoDB, MySQL, Apache Kafka
Cloud & Storage: Azure Blob Storage, AWS S3, Hadoop
Tooling: Apache Spark, Power BI, Git

PROFESSIONAL EXPERIENCE

7-Eleven | *RCG*

May 2025 – Present

- Own end-to-end data ingestion for **15+ pipelines** across multiple sources including REST APIs (Stripe, Bybe), databases (MySQL, MongoDB), workforce reports (Workday), and real-time Kafka streams for live POS transactions, processing **millions of records daily** into the Databricks data lake.
- Design source-specific incremental and truncate-reload ingestion patterns ensuring idempotency and auditability, achieving **zero SLA breaches** across all business-critical feeds for Operations and Merchandising teams.
- Improve data freshness by **40%** through batch processing window tuning and ingestion logic optimization, enabling near real-time availability of POS and payment data for daily reporting.
- Consolidate ingestion logic into reusable Python/PySpark modules, cutting code complexity by **35%** and reducing new source onboarding time from days to hours.
- Implement schema evolution handling and data quality gate checks at the ingestion layer, establishing clear pipeline contracts for Operations, Merchandising, and Analytics teams to prevent malformed data from reaching downstream reports.

ICICI Bank | *BFSI*

Dec 2022 – May 2025

- Deliver three enterprise datamarts, **Branch-360**, **Collection-360**, and **Digital-360**, providing a **360-degree view** of all credit/debit card and mobile payment transactions to **50+ daily active users** across risk, compliance, and marketing functions.
- Design a reusable ETL automation framework on Azure Databricks covering **70%** of Data Vault construction across **15+ pipelines**, producing 9 satellites and 3 hubs while saving **20+ engineering hours per sprint**.
- Achieve **33% faster** ETL runtime and **50% reduction** in cloud resource costs through Spark optimizations including partitioning, bucketing, and Z-ordering, processing **10TB+ of banking data daily**.
- Bring dataset error rates down from **8% to under 3%** and cut technical debt by **25%** through structured code reviews across a **10-member team**, enforcing consistent data quality standards at scale.

Databricks CoE | *LTIMindtree*

July 2022 – May 2025

- Architect of **Alcazar**, a migration accelerator **officially listed under Databricks Data Warehouse Brickbuilder Migration Solutions**, placing it among partner-grade tooling in active use across the global Databricks ecosystem.
- Maintain a library of reusable Databricks templates and best-practice notebooks within the CoE, improving cross-team delivery speed by **40%**.
- Drive Databricks feature adoption through technical blogs, internal POCs, and LinkedIn content, contributing to a **35%** increase in advanced feature usage across teams.

CERTIFICATIONS

- Databricks Certified Data Engineer Professional
- Databricks Certified Solution Architect
- Databricks Certified Generative AI Engineer Associate
- Microsoft Certified: Azure Data Engineer Associate
- Google Cloud Professional Data Engineer

EDUCATION

Chaitanya Bharathi Institute of Technology

Bachelor of Engineering in Electronics and Communication Engineering

GPA: 8.56 / 10

ACHIEVEMENTS & EXTRACURRICULARS

Top 100 in the Sparks War 3.0 Databricks Hackathon by Celebal Technologies

Triple Award Winner at LTIMindtree: Hi-Five, Coach, and Super Crew Awards for consistent on-time delivery

Runners-up in Table Tennis Men's Doubles at LTIMindtree 2023

4x Inter-College Chess Champion with consecutive titles from 2018 to 2022
